Our 2009 Viviana is a non-traditional blend using aromatic white varieties. This year, the blend consists of Riesling, Gewurztraminer, Muscat Canelli and Viognier. All grown in the hot climate of far West Texas, these varieties exhibit the perfume of honey, orange blossoms and tropical fruit. Blending at the time of fermentation allows us to achieve an integration of these wonderful fruit flavors.

With its fragrant nose, savory acidity and mouthwatering flavors, Viviana will surely leave you wanting more. This wine will go well with a wide variety of chicken, fish or pasta dishes. It's aroma and bouquet will pair nicely with fresh fruits and vegetables.

Enticing exotic tropical fruit, honeysuckle and melon combine to create a lush texture kept fresh by a lift of citrus zest through the long finish. Viviana is a truly special wine. Our best to you, enjoy.
